Throughout the program, you will focus on the “people issues” within your organization.

PME I is an exciting developmental experience that explores leadership concepts and their practical application through challenging curriculum and networking opportunities.

You will study major subject areas including adaptive change, the role of the leader, ethical decision-making, communication, stress and wellness, personal leadership styles, and diversity.

PME I is not a technical personnel course.

Daily presentations by subject matter experts, along with interactive exercises and simulations, active learning peer groups, and relevant reading material characterize the experience.
